HYSTORICAL VENICE

Meet the guide. By private boat, we will reach the elegant *Piazza San Marco*, dominated by homonymous *Basilica*, the *Palazzo Ducale*, the superb *Campanile*, without forgetting the *Torre dei Mori*, one of the most beautiful Renaissance buildings of the city with its astronomic clock. We will have the opportunity to relive the emotions of the past: admire the magnificent interiors of *Palazzo Ducale*, one-time seat of the government, today a museum which is home to some of the works of the best Venetian artists and part of the historical furnishings. Crossing the *Bridge of Sighs*, with a view of the lagoon and the island of S. Giorgio, is a one-off experience. The visit will continue to the outside and inside of the *Basilica*, with its different architectural styles and its *Golden Pall*, one of the richest and most precious gold works existing in the world today. We will have a little free time to explore the narrow streets and squares individually and drink a cappuccino in one of the four historical coffee shops of the Square, accompanied by enchanting orchestral music, before returning to the port by private boat.
